

# NOTICE

## **THIS IS TO PROVIDE NOTICE THAT THERE WILL BE RIGHT-OF-WAY (R-O-W) CLEARING OF BRUSH AND TREES TAKING PLACE ON TOWN OF ALBION ROADS.**

In the near future, possibly as soon as early next week, we will begin clearing the R-O-W on several Town of Albion roads. The goal is to clean up the R-O-W's to help with drainage and to improve visibility and safety for the traveling public. The work will be performed by a contractor with an excavator that has a large grinding head attachment. All roads will be closed during this work, for safety reasons. This will be short term work, so impacts should be limited to one day, or less, for each area. We ask for your cooperation during this work.

The roads planned for clearing at this time are as follows:

1. Edgerton Road - east side of the road from 108 up the hill to 140.
2. Jacobus Road - north side of the road between 694 and 652.
3. Indian Trail - north side of the road from Mound Dr. to Potowatomi Dr.
4. Oak Drive - north side where it runs east to west at the south end between 658 and 598.
5. Hammond Road - north side of the road from Washington Rd east to the bridge.
6. Lake Drive Road - north side of the road from Hillside Rd west to I-39.
7. Koshkonong Drive – south side of the road from Hillside Rd east to Liguori Rd.
8. Thronson Road - west side of the road from T to the north.
9. Goede Road - west side of the road from 239 to 269.

Once this work is completed, it may look a little rough for a period of time. We will as necessary bring in another contractor with a bucket truck(sometime between now and spring , prior to new growth) and clean up any stumps on the larger trees to improve appearance and health of the trees.

If you have any questions or concerns please call Andy at 608-751-6154 and I'll do what I can to address them.

Thank you for your cooperation,

Andy Decker
